SACHIN REDDY SHANKURI

Hyderabad, India | +91 9391618078 | shankurisachinreddy0907@gmail.com | Portfolio | LinkedIn | GitHub

EDUCATION

TKR College of Engineering and Technology — Hyderabad, India
Bachelor of Technology, Major in Electronics and Communication Engineering — 2024
Cumulative GPA: 7.31/10

NSR Impulse Junior College — Hyderabad, India
Higher Secondary Education (Class 12) | Score - 96.8% — 2020

Jawahar Navodaya Vidyalaya — Nizamsagar, India
Class 10 | Score - 76% — 2018

WORK EXPERIENCE

MAR SYMANTECH PVT LTD — Hyderabad, India
Associate Data Scientist — Dec 2025 – Present

- Develop predictive regression models achieving 95% forecasting accuracy for sales and 36-month revenue projections
- Automate core KPI reporting using Tableau, eliminating 10+ hours of manual weekly work for cross-functional teams
- Perform exploratory data analysis to optimize marketing channels, contributing to a 15% increase in user retention and 8% revenue growth

CLARO SOFTWARE SOLUTIONS PVT LTD — Hyderabad, India
Associate Software Engineer — Oct 2024 – Nov 2025

- Architected scalable Python/Flask backend services and PostgreSQL databases, supporting rapid growth to 10,000+ users
- Built secure REST APIs aggregating unstructured data from 20+ sources, powering a core feature that drove 14% revenue growth
- Developed interactive React/Vite interfaces and administered A/B tests, increasing website conversion rates by 15%

PROJECT WORK

QuillOrbis | Python, Flask, PostgreSQL, SQLAlchemy, Redis, Socket.IO

- Built a full-stack community platform using Flask, PostgreSQL, Redis, and Socket.IO, implementing 20+ relational entities to support content publishing, real-time messaging, and notifications
- Engineered secure authentication and access control with email verification, password recovery, CSRF protection, CAPTCHA escalation, and dual-layer rate limiting
- Designed scalable notification, media management, and moderation systems using push notifications, background tasks, and Cloudinary integration

Flask-Gravatar (Open-Source Contribution) | Python, Flask, Pytest, Flake8, Tox

- Restored Flask-Gravatar compatibility with modern Flask (2.3+) and Python releases by resolving framework API changes and eliminating import-time runtime failures
- Modernized the library's testing and build pipeline by migrating legacy infrastructure to pytest and flake8, validating framework stability across a comprehensive tox environment matrix

RESEARCH AND PUBLICATIONS

Smart Home Security and Surveillance System Using Raspberry Pi | Raspberry Pi, Python, CNN, OpenCV, SQLite

- Automated residential access control and enhanced physical security by designing an IoT-based architecture powered by real-time image recognition and Convolutional Neural Networks (CNNs)
- Published findings and system architecture in the International Journal of Innovative Research in Science, Engineering, and Technology (IJIRSET), Vol. 13, Issue 4, April 2024

SKILLS

Programming Languages: Python, SQL, C, JavaScript
Backend and APIs: Flask, Django, REST APIs, FastAPI, SQLAlchemy
Frontend: React.js, HTML, CSS, Bootstrap, Tailwind CSS, Redux
Data Science and ML: Pandas, NumPy, Scikit-Learn, Regression Analysis, EDA, OpenCV, CNNs, Deep Learning
Data Visualization: Matplotlib, Seaborn, Tableau, Power BI
Databases: PostgreSQL, SQLite, Redis
Infrastructure and Tools: Git, GitHub, AWS, Render, Netlify, Raspberry Pi (IoT)

ADDITIONAL

Languages: Fluent in English, Telugu, and Hindi
Certifications: Complete Python Bootcamp (Python, Data Science & ML Fundamentals), Python Full-Stack Development
Achievements: Cleared the highly competitive, national-level Jawahar Navodaya Vidyalaya Selection Test (JNVST), securing merit-based admission recognized for early academic excellence and analytical problem-solving
